**CORGENIX TO PRESENT AT THE 10<sup>th</sup>  
ANNUAL, CLINICAL BIOMARKERS &  
WORLD CDx CONFERENCE**

*Services to Improve Patient Outcomes*

**Broomfield, CO-August 19, 2019.** Corgenix, Inc. a Medical Diagnostics Company, announced today that it will be presenting at the 10th Annual Clinical Biomarkers & World CDx Conference in Boston, MA, on Sep 12, 2019.

The goals of this conference are to advance dialogue and sharing of data and experiences that work to “accelerate the translation of clinically predictive biomarkers & enhance the commercialization of Precision Medicine, to deliver on the personalized healthcare reality (<https://world-cdx.com/>).”

At this conference, which gathers Companion Diagnostic industry leaders from Pharma, Diagnostics, Academia, Associations and Advocacy Groups, Corgenix will present on the increasing role that circulating protein assays may play in Precision Medicine and Personalized Healthcare.

Corgenix has 30 years’ experience with development, manufacturing and distribution of immunodiagnostic solutions. Our experience and expertise covers the assay development continuum and our services focus on four (4) key areas: Development, Clinical, Quality and Regulatory and Manufacturing, enabling us to deliver products and services that remove burdens, reduce risk and instill confidence with our partners.

Our CLIA-certified, CAP-accredited laboratory allows us to provided additional services to our partners, ranging from research, reproducibility and clinical study testing, to LDT and single-site IVD development. Our test menu continues to grow as we add new tests, across multiple disease areas, on a regular basis.

As an FDA-registered ISO13485:2016-certified facility, we are in compliance with global medical device and In Vitro Diagnostic (IVD) regulations and standards ensuring that the services we offer are of the highest quality. We support our partners’ assay development, testing and manufacturing needs as well US and global registrations and commercialization requirements.
